Activity 3: Implementing Dependency Between Category and Subcategory Choice Fields

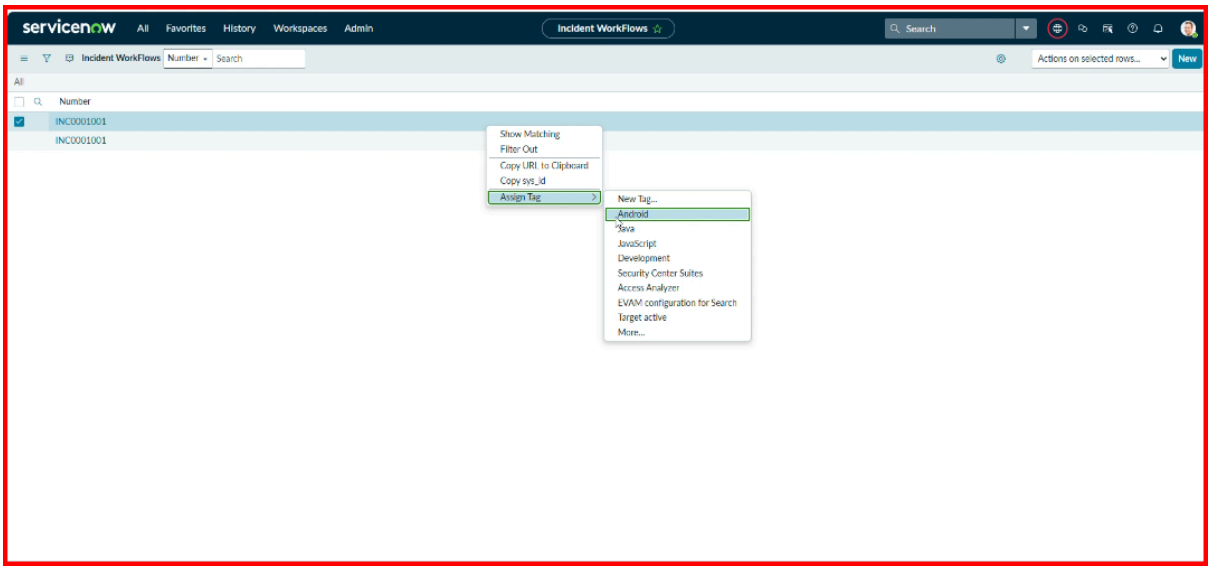

Description:

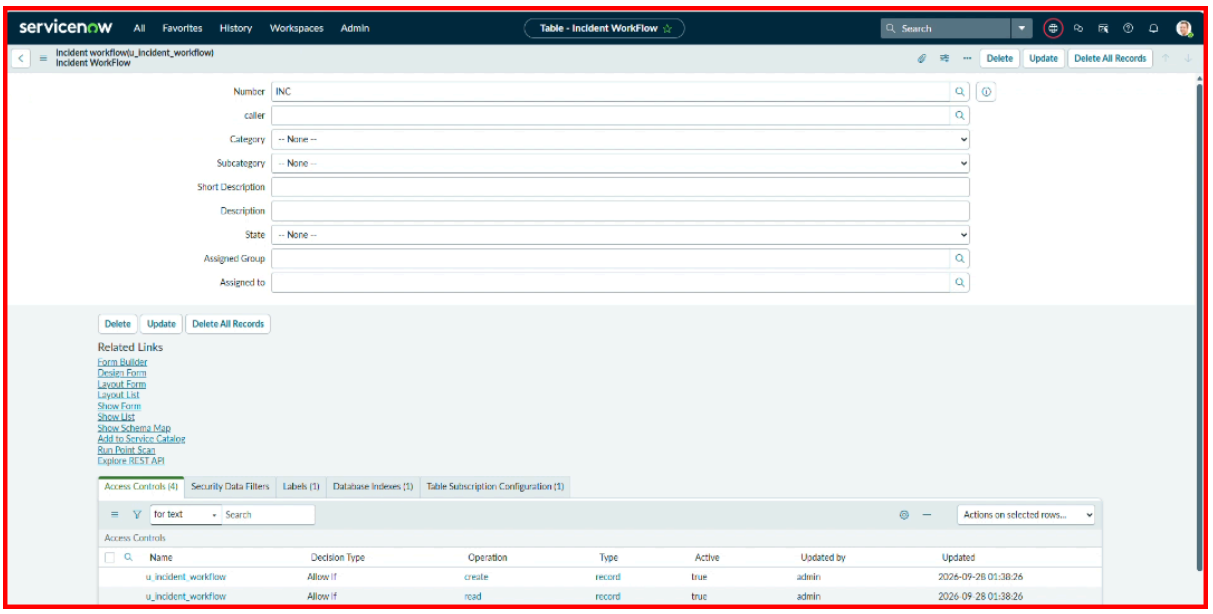

The objective of this milestone is to implement a **dependency relationship** between the **Category** and **Subcategory** fields so that the available Subcategory options dynamically change based on the selected Category.

STEPS:

- Open the Created Table Form and Right click on the **Subcategory** Field.
- Click on the **Configure Dictionary.**
- Under **Related links** Click on the **Advanced view**,
- Then select the Dependent **Field** Section.
- Enable the checkbox **Use dependent field true.**
- Then select the Field **Category** on the **Dependent on field.**
- Then **save** the Form
